I am a second-year student at PES University, Bangalore, currently pursuing BTech Computer Science. I am passionate about cybersecurity and IoT.

I play CTFs individually as 'Gallifrey' and for the CTF team nUb5.

Skills

- C
- C++
- Python
- JavaScript (NodeJS + ReactJS)
- Unix
- CTF Player

Projects and Courses

2020

Project / Autonomous Navigation using ROS and RaspberryPi

Devised an autonomously navigating vehicle that can map an area, remember it and navigate in it while avoiding collision. Once mapped, it can follow simple voice commands to go to certain places. ROS and gmapping were used in this project.

2020

Project / CTF Platform

This project is a CTF platform, much like CTFd. It was made as the final project for Web Technologies (Subject in third semester)

NOV 2020

Course/ Understanding Unix

Undertook the "Understanding Unix" Course offered by the college under PESU I/O as a month-long peer to peer learning session.

JAN 2021

Course/ Introduction to blockchains

Undertook the "Introduction to blockchains" Course offered by the college under PESU I/O as a month-long peer to peer learning session, and passed with distinction.

MAY 2020

Course/ Practical Hacking: Undetectable Malware

Took this course on Udemy, it dealt with creating undetectable malware using Metasploit framework and Veil

MAY 2020

Course/ CEH

Completed the Certified Ethical Hacker course offered by Eikon India, did not appear for the certification exam.

Education

2019-2023

BTech CSE/ PES University, Bangalore

Currently a second-year student pursuing Computer Science and Engineering, with CGPA of 8.2. Also, a recipient of the Distinction Award in the third semester.

2016-2018

AISSCE / Chinmaya Vidyalaya, Hyderabad

Passed the CBSE AISSCE exam with 78% with the subjects Maths, Physics, Chemistry, English and Computer Science.

Experience and Accomplishments

NOV 2020-PRESENT

Mentor/ Zero Day Cybersecurity Club, PES University

As a mentor, one is expected to hold weekly sessions for the club members to introduce them to the various tools and techniques used in the field of cybersecurity and setting challenges related to the field.

CTF

I am a CTF player who plays under the handle 'Gallifrey', or as part of the team 'nUb5'. The following are my achievements:

HacktivityCon CTF – July 2020

Rank 134 out of 3663 players

DarkCTF – Sept 2020

Rank 27

Fword CTF – Aug 2020

Rank 164

Phantom CTF – Aug 2020

Rank 4
